Abstract

This document demonstrates how to use the LSST \LaTeX class files to make a Data Management tech note. Build this document in the normal way, making sure that the class file is available in the \LaTeX load path.

Change Record

Version	Date	Description	Owner name
1	2017-04-17	Initial release. Based on LDM example	Tim Jenness

1 Introduction

Now write your document as you would normally write it. Different citation schemes are supported, and the default bibliography style is declared by the class. In this example we have enabled author-year citing. Use `\citeds` for citing docushare documents.

`\citedsp`: [LPM-17; LSE-30]

`\citeds`: (SRD; LPM-17; LSE-29)

`\citep`[[]]: (e.g., LSST Science Collaboration, 2009; **?**, are interesting)

`\cite`: McKercher (LPM-51); Wang et al. (2011)

Font checking: Fixed width font.

Math checking: $A = \pi r^2$ (mathroman)
